

Slide bearing models translation

There are many factories and distributors of slide bearings in the world. Most of them will name their own model numbers for the same bearing bushing. We have searched and studied part of popular model numbers and make this list to translate them to our model number system. Maybe there are mistake in this list. Please kindly email us if you know the correct one or new model number.

(Remind: There are some model numbers have been registered as Trademark, so do not use them without authorized by related parties)

Our model means the product codes in our website (www.oilles.com) and catalogue.

| Our model | Also called (some are Trademark) | Description |
|---------------------|---|---|
| S-PE (lead free) | Glyco PG F Glyco PGZ F (Inch-size) DU SF-1,SF-1W,SF-1H BM-LMB MU PAP P10 PCM B (B: Lead) PCM E (E: MoS2) PCZ B (Inch-size) RBT SBT | Carbon steel backing Plain bushing with PTFE |
| PER | SBT-40 BF-LMB BF-F-LMB DP4 | Carbon steel backing Plain bushing with Red PTFE |
| WF-PE | Glyco PBG F P A F P10 PCMF B PCMF E SBT-F BM-F-LMB SF-1F | Carbon steel backing Flanged bushing with PTFE |
| W-PE | P A W P10 WM-LMB PCMW B (B: lead) PCMW E (E: MoS2) PCMW M Glyco PXG F SF-1W | Carbon steel backing thrust washer with PTFE |
